I, had gone for milk and fell on the pitcher and wrist so we were both taken to Bolton to Doctor One day while walking on a path along a reservoir, being deep, I thought I was on the path when I was reservoir and the ice broke with me so I went to the it was about eight feet deep. It so happened that I struggle and came up at the place I broke through. I for something and was fortunate enough to get bunch of grass and pull myself out. It was a very or me.

I was working at the factory I saw many terrible which I shall never forget. When I was thirteen years had worked eighteen months as an apprentice, I was ms to myself. I soon got three looms, then four, course of time six looms with
